at Kampong Thom High School

EXPERIENCES

Score Management System (VC2)

1 JULY 2026 – 10AUGUST 2026

A web-based application that streamlines the management of student academic records by allowing teachers and administrators to record, update, and monitor student scores efficiently. The system improves data accuracy, reduces manual paperwork, provides role-based access, and enables quick generation of reports for better academic decision-making.

Role: Backend and Frontend

Technology: Laravel, Vue.js, MySQL, Postman, MVC, OPP, GitHub, Redis

Achar Booking Platform (VC1)

01 MAY 2026 – 10 APR 2026

Achar Booking Platform: A web-based platform that allows users to book Achar services for weddings, birthdays, celebrations, and festivals. The system enables vendors to manage their services and availability, while administrators oversee users, vendors, bookings, and platform operations.

Role: Backend and Frontend

Technology: Laravel, Vue.js, MySQL, Postman, MVC, OPP, GitHub, Redis
